Study ID: Mark_Otieno_Cajanus_cajan_Kenya_2009

Contact: mmarkotieno@gmail.com

Credit: Mark Otieno, C. Sheena Sidhu, Ben A. Woodcock, Andrew Wilby, Ioannis N. Vogiatzakis, Alice L. Mauchline, Mary W. Gikungu, and Simon G. Potts

Publication: 10.1007/s10841-015-9788-z

Number of sites: 12

Year of sampling: 2009

Crop: Cajanus cajan

Variety: There are missing varieties (given 0 out of 12).

Location: There are missing locations (given 0 out of 12).

Country: There are no locations to check.

Field size: There are missing field sizes (given 0 out of 12).

Management: There are missing results for management (given 0 out of 12).

Sampling period: Full information.

Richness: There is not enough taxonomic resolution to estimate richness.

species groups considered: NA

Abundance: There are missing values (given 0 out of 12).

Visitation rate units: visits per unit of time

Visitation rate: Full information.

Yield units: Insect Pollination = Open pollination [control] - Self-pollination [Tulle bags]

Yield: Full information.

Alternative yield units: NA

Alternative yield: NA

Queries
=====

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

- =====
• Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
• If your study is already published, please check that its DOI is correct.
• If possible, please provide the names of missing crop varieties.

- If possible, please provide the area of each field [in hectares].
- If possible, please assign a management category [organic, IPM, conventional] to each field.
- If possible, please provide the latitude and longitude of the missing locations [in decimal degrees].
- There are sites without abundance records. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- According to our raw data, there is not enough taxonomic resolution to estimate richness. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.
