Study ID: Pablo_Cavigliasso_Vaccinium_corymbosum_Argentina_2016

Contact: pablo.cavigliasso@gmail.com; cavigliasso.pablo@inta.gob.ar

Credit: Pablo Cavigliasso. Instituto Nacional de Tecnología Agropecuaria (INTA), Estación Experimental Agropecuaria Concordia. Programa Nacional Apícola (PROAPI)

Publication: NA

Number of sites: 13

Year of sampling: 2016; Crop: Vaccinium corymbosum; Variety: Emerald

Full information.

Location: UTM zone is needed. There are missing locations (given 0 out of 13).

Country: There are no locations to check.

Field size: Full information.

Management: Full information.

Sampling period: There are missing sampling periods.

Richness: Full information.

species groups considered: No taxa restrictions have been identified.

Abundance: Full information.

Visitation rate units: visits per hour and plant

Visitation rate: Full information. Yield units:

fruitset (%) Yield: Full information.

Alternative yield units: NA

Alternative yield: NA

Queries

Instructions: Please, edit this file and answer the following queries within the document, one by one.

Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

=====
• Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.

Corresponding affiliations and acknowledgements/funding information have been checked and updated

• If your study is already published, please check that its DOI is correct.

It has not been published yet

• If possible, please provide the sampling start month and sampling end month for each field, respectively, and use a numeric format (for example, 1 for January, 2 for February and so on).

Sampling start month and sampling end month for each field has been provided

- If possible, please provide the latitude and longitude of the missing locations [in decimal degrees].

Latitude and longitude of the missing locations has been provided

- Please check that our information about the species groups considered is correct.

Species information have been checked

- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.

Description of methodology have been checked
