Automatic report
=====

Study ID: Natacha_Chacoff_Citrus_limon_Argentina_2015
Contact: nchacoff@gmail.com
Credit: Natacha Chacoff (Instituto de Ecologia Regional. CONICET UNT)
Publication: NA
Number of sites: 12
Year of sampling: 2015
Crop: Citrus limon
Variety: Full information.
Location: Full information.
Country: All reported countries are OK.
Field size: There are missing field sizes (given 0 out of 12).
Management: Full information.
Sampling period: There are missing sampling periods.
Richness: Full information.
species groups considered: No taxa restrictions have been identified.
Abundance: Full information.
Visitation rate units: NA
Visitation rate: There are missing values (given 0 out of 12).
Yield units: fruit set (%)
Yield: There are missing values (given 9 out of 12).
Alternative yield units: NA
Alternative yield: NA

Queries
=====

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

- =====
• Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
• If your study is already published, please check that its DOI is correct.
• If possible, please provide the area of each field [in hectares].

- If possible, please provide the sampling start month and sampling end month for each field, respectively, and use a numeric format (for example, 1 for January, 2 for February and so on).
- There are sites without visitation rate records. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- Please check that our information about the species groups considered is correct.
- There are sites without yield. Please, check that such information is correct. If possible, please provide the missing values (or the corresponding z-scores).
- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.
- When processing your raw data, we aggregated the measurements at different distances within each site. Is it correct?
