Automatic report
=====

Study ID: Agustin_Saez_Rubus_idaeus_Argentina_2014
Contact: agustinsaez@live.com.ar
Credit: Agustin Saez/CONICET (Universidad Nacional del Comahue)
Publication: 10.1126/science.aac7287
Number of sites: 16
Year of sampling: 2014
Crop: Rubus idaeus
Variety: There are missing varieties (given 0 out of 16).
Location: Full information.
Country: All reported countries are OK.
Field size: Full information.
Management: Full information.
Sampling period: There are missing sampling periods.
Richness: Full information.
species groups considered: only bees
Abundance: Full information.
Visitation rate units: NA
Visitation rate: There are missing values (given 0 out of 16).
Yield units: kg/ha
Yield: Full information.
Alternative yield units: Individual fruit weight (gr)
Alternative yield: Full information.

Queries
=====

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

=====

- Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
- If your study is already published, please check that its DOI is correct.
- If possible, please provide the names of missing crop varieties.

- If possible, please provide the sampling start month and sampling end month for each field, respectively, and use a numeric format (for example, 1 for January, 2 for February and so on).
- There are sites without visitation rate records. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.
