Automatic report  
=====

Study ID: Breno\_M\_Freitas\_Annona\_muricata\_Brazil\_2013

Contact: freitas@ufc.br

Credit: Breno M. Freitas

Publication: NA

Number of sites: 1

Year of sampling: 2013

Crop: Annona muricata

Variety: There are missing varieties (given 0 out of 1).

Location: UTM zone is needed. There are missing locations (given 0 out of 1).

Country: There are no locations to check.

Field size: Full information.

Management: Full information.

Sampling period: There are missing sampling periods.

Richness: Full information.

species groups considered: No taxa restrictions have been identified.

Abundance: Full information.

Visitation rate units: NA

Visitation rate: There are missing values (given 0 out of 1).

Yield units: % fruit set per plant

Yield: Full information.

Alternative yield units: NA

Alternative yield: NA

Queries  
=====

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary\_report\_and\_queries' (with your comments) and your 'Data\_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

- =====
- Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data\_ownership' (excel) file.
  - If your study is already published, please check that its DOI is correct.
  - If possible, please provide the names of missing crop varieties.

- If possible, please provide the sampling start month and sampling end month for each field, respectively, and use a numeric format (for example, 1 for January, 2 for February and so on).
- If possible, please provide the latitude and longitude of the missing locations [in decimal degrees].
- There are sites without visitation rate records. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- Please check that our information about the species groups considered is correct.
- Please, check that the brief description of your methodology (in your insect\_sampling file) is correct.
