Study ID: Alexandra_Maria_Klein_Coffea_arabica_Indonesia_2000_2001

Contact: alexandra.klein@nature.uni-freiburg.de

Credit: Alexandra-Maria Klein, Ingolf Steffan-Dewenter and Teja Tschardt

Publication: 10.1098/rspb.2002.2306

Number of sites: 24

Year of sampling: 2000/2001

Crop: Coffea arabica

Variety: There are missing varieties (given 0 out of 24).

Location: Full information.

Country: Reported countries may contain errors.

Field size: There are missing field sizes (given 0 out of 24).

Management: There are missing results for management (given 0 out of 24).

Sampling period: Full information.

Richness: Full information.

species groups considered: only bees

Abundance: There are missing values (given 0 out of 24).

Visitation rate units: flower visits per plant and hour

Visitation rate: Full information.

Yield units: NA

Yield: NA

Alternative yield units: NA

Alternative yield: NA

Queries
=====

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observeddataset@gmail.com before the 20th of July.

- =====
• Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
• If your study is already published, please check that its DOI is correct.
• If possible, please provide the names of missing crop varieties.
• If possible, please provide the area of each field [in hectares].

- If possible, please assign a management category [organic, IPM, conventional] to each field.
- If possible, check the latitude and longitude that were included in your field_level_data (csv) file. According to our automatic tests, some locations do not belong to the reported country/countries.
- There are sites without abundance records. Please, check that such information is correct. See also the information about OBServ data processing in your ‘First read me - General report’ pdf file.
- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.
- If possible, please, provide yield information.
- As in the case of *Apis cerana*, we assigned “*Apis nigrocinta binghami*” to “other_wild_bees” guild.
