
Automatic report

Study ID: Alexandra_Maria_Klein_Coffea_canephora_Indonesia_2000_2001

 $Contact: \ alexandra.klein@nature.uni-freiburg.de$

Credit: Alexandra-Maria Klein, Ingolf Steffan-Dewenter and Teja Tscharntke

Publication: 10.1046/j.1365-2664.2003.00847.x

Number of sites: 15

Year of sampling: 2000/2001

Crop: Coffea canephora

Variety: There are missing varieties (given 0 out of 15).

Location: Full information.

Country: All reported countries are OK.

Field size: There are missing field sizes (given 0 out of 15).

Management: There are missing results for management (given 0 out of 15).

Sampling period: Full information.

Richness: Full information.

species groups considered: only bees

Abundance: There are missing values (given 0 out of 15).

Visitation rate units: flower visits per plant and hour

Visitation rate: Full information.

Yield units: NA

Yield: NA

Alternative yield units: NA

Alternative yield: NA

Queries

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observdataset@gmail.com

before the 20th of July.

- Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
- If your study is already published, please check that its DOI is correct.
- If possible, please provide the names of missing crop varieties.
- If possible, please provide the area of each field [in hectares].

- If possible, please assign a management category [organic, IPM, conventional] to each field.
- There are sites without abundance records. Please, check that such information is correct. See also the information about OBServ data processing in your 'First read me General report' pdf file.
- Please, check that the brief description of your methodology (in your insect_sampling file) is correct.
- If possible, please, provide yield information.
- As in the case of Apis cerana, we assigned "Apis nigrocinta binghami" to "other_wild_bees" guild.
