
Automatic report

Study ID: Margaret_Mayfield_Actinidia_deliciosa_New_Zealand_NA

Contact: m.mayfield@uq.edu.au

Credit: Taylor H. Ricketts, Neal M. Williams, and Margaret M. Mayfield

Publication: Connectivity for Conservation (Cambridge Univ Press, Cambridge, UK)

Number of sites: 6

Year of sampling: Year of sampling is missing.

Crop: Actinidia deliciosa

Variety: There are missing varieties (given 0 out of 6).

Location: There are missing locations (given 0 out of 6).

Country: There are no locations to check.

Field size: There are missing field sizes (given 0 out of 6).

Management: Full information.

Sampling period: There are missing sampling periods.

Richness: There is not enough taxonomic resolution to estimate richness.

species groups considered: NA

Abundance: There are missing values (given 0 out of 6).

Visitation rate units: NA

Visitation rate: Full information. Yield units: mean fruit weight

Yield: Full information.

Alternative yield units: NA

Alternative yield: NA

Queries

Instructions: Please, edit this file and answer the following queries within the document, one by one. Then send the edited 'Summary_report_and_queries' (with your comments) and your 'Data_ownership' (excel) file to alfonso.allen.perkins+observdataset@gmail.com

before the 20th of July.

- Please check that credit information is correct and add the corresponding affiliations and acknowledgements/funding information in your 'Data_ownership' (excel) file.
- If your study is already published, please check that its DOI is correct.
- Please provide the year of sampling of the study [four digits numeric format].
- If possible, please provide the names of missing crop varieties.

- If possible, please provide the area of each field [in hectares].
- If possible, please provide the sampling start month and sampling end month for each field, respectively, and use a numeric format (for example, 1 for January, 2 for February and so on).
- If possible, please provide the latitude and longitude of the missing locations [in decimal degrees].
- There are sites without abundance records. Please, check that such information is correct. See also the information about OBServ data processing in your 'First read me General report' pdf file.
- Please provide units for your visitation rate records.
- According to our raw data, there is not enough taxonomic resolution to estimate richness. Please, check that such information is correct. See also the information about OBServ data processing in your 'First read me General report' pdf file.
- Please, check that the brief description of your methodology (in your insect sampling file) is correct.
